Northern Working Newfoundlands

WATER REGULATIONS REVIEW

In preparation for the water regulations review due in 2011, The Working Sub Committee would like to invite all members to use this sheet to feed back to us any comments / suggestions on how you feel we could improve and progress the tests. We would ask that you give brief reasons for any of your suggestions so that we may understand the thinking behind them.

Would you please return by the end of July 2009, to test managers at the tests or hand to or post to Angie Fitzgerald, 26 Valescourt Rd, West Derby, Liverpool, L12 9EX.
